

Questions and Answer for RFP – Latin American Regional Representative

1. Is this RFP for a new role, or is it a rebid on an existing role?

Apologies for not clarifying this on the RFP, this is a new role for a RAPP Regional Program Implementation Manager.

2. One of the review criteria appears to be related to qualifications. Would experience working with soy be a requirement or a significant factor in the evaluation?

Again, apologies for not making this clear. Experience working with soy, although not a requirement, is a definite plus.

3. Do you have a previous list of countries and universities to participate in the program or will it be up to us to propose it, is the Caribbean region included?

The countries are Central American only. Establishing a relationship with the universities will be a responsibility of the RAPP Regional Program Implementation Manager.
